LAWG MEMBERS

SPEAKERS

Anthony Gemmel
Senior Director, EMEA
Network New Ventures and
Transactions at Johnson &
Johnson Innovation

Mr. Anthony Gemmel is the Senior Director for the EMEA Innovation Leads Network and for Transactions at Johnson & Johnson Innovation. He is responsible for a team of New Venture Leads in Europe identifying, developing and executing transactions with a selection of the Innovation Centre's diverse ecosystem of partners, including biotech companies, venture capital, non-profit organizations, governments and academic institutions.

Previously, Mr. Gemmel worked within several business development roles within the Johnson & Johnson Pharmaceutical Group Business Development including New Business Development, Mergers & Acquisitions and New Ventures, and has completed a wide variety of business development, licensing, acquisition and divestment assignments.

Prior to joining the Johnson & Johnson family of companies, Anthony had management roles in the UK and EMEA in New Product Development and Business Unit Management with Lilly, Servier and Bristol Myers Squibb spanning multiple disease areas.

He received his degree in Biological Sciences from Durham University and his MBA from the London Business School.

Torsten Lindström
Partner, Senior Vice President
and European Healthcare
Director for the Rud Pedersen
Group

Mr. Lindström's expertise is in strategic communication within the political business environment, creating value for all stakeholders at local, national, Nordic and European levels.

Torsten chairs the Rud Pedersen Healthcare team in Brussels and Nordic countries. His knowledge of the many and varied areas of healthcare and welfare systems in the Nordic countries and the EU is based on experience from several senior roles as manager, adviser and decision maker in both the public and private sectors.

He has previously been a member of the Swedish Parliament, a policy advisor in the Prime Minister's office, a member of several hospital boards and an elected politician at both municipality and regional level. Torsten has an Executive MBA degree as well as degrees in History and Education. He has also taken courses in Management, Finance, Strategy and Healthcare.

SPEAKERS

Dr. Alvydas Česas
Chief of Oncology &
Chemotherapy Clinic at
Klaipeda University Hospital

Mr. Alvydas Česas is a certified physician and medical oncologist with over 20 years of experience in the field of oncology. He is currently the chief of Oncology and Chemotherapy Clinic at Klaipeda University Hospital, as well as the President of Lithuanian Society for Medical Oncology.

His fields of professional interest are colorectal cancer, breast cancer, uro-genital tract cancers, melanoma. Mr. Česas has authored and co-authored over 20 scientific publications.

Mr. Česas is also a full member of European society of medical oncology (ESMO), member of the Central European Cooperative Oncology Group (CECOG), Chairman of the National Cancer Prophylaxis and Control Program and the Monitoring Committee for the Organization of Oncological Assistance and a former Lithuanian National Representative in ESMO NR committee

Per Troein
VP Strategic Partners,
QuintilesIMS

Mr. Troein has been with QI for 19 years and is responsible for the relationship with suppliers and associations. He has deep insight around generics and biosimilars and how they are handled in different markets. One of QI's priorities is to have the best understanding of those dynamics to secure the most appropriate data, to be the best partner with the different data partners, and to be able to support the industry and also when appropriate governments. He is a well know speaker in the field of distribution trends and pricing and is very active in consulting projects in the area.

Prior to joining IMS, Per worked 13 years for Pharmacia in US and Europe. His last 6 years were spent in strategic development as a VP including several major mergers and acquisitions.

He holds an MSc in engineering from Lund's Institute of Technology and an MBA from INSEAD.

SPEAKERS

Agnė Vaitkevičienė
Chief Executive Officer at
Froceth

Mrs. Vaitkevičienė's work in the field of cell therapy began at Vilnius University, where she earned a degree in Molecular Biology in 2005. During her studies, she took part in an internship at the university's Institute of Immunology, allowing her to extend the knowledge on the theory and practises involved in the use of stem cells. Agne continued her studies in Spain, at the University of Barcelona, where she specialized in organ, tissue and cell transplantation, also participating in an internship at the Blood and Tissue Bank of Catalonia (BST).

Agne has been able to further develop the knowledge she acquired during her studies through the work at the National Public Health Surveillance Laboratory and at the first cord blood stem cell bank in Lithuania. Through the involvement in various courses and training programs, Agne has also received instruction in fundamental Good clinical practices (GCP), and has developed the skills in the areas of Good Manufacturing Practices (GMP), GMP laboratory maintenance, systems, cell therapy, regenerative medicine and methods for tissue and blood banking. Since end of 2014, together with partners, Agne established first and at this point the only Advanced therapy medicinal product manufacturing facility in the Baltic states and acts as a CEO of the company. Froceth is focused on developing cellular therapies and tissue engineered products for personalized treatment of various diseases such as cancer or multiple sclerosis.

Dr. Monika Kavaliauskė
Chief Executive Officer at
CasZyme

Dr. Monika Kavaliauskė is CEO at CasZyme, a startup company founded in 2017, based in Vilnius, Lithuania. CasZyme aims to develop new discoveries, innovative applications and top-quality research in the field of CRISPR based Molecular Tools. Company seeks to create outstanding value for researchers and companies practicing gene-editing worldwide.

Dr. Monika Kavaliauskė previously established Innovations Office at Vilnius University, Lithuania and was managing it for 5 years. Dr. Monika Kavaliauskė also holds PhD in Social Sciences, and is experienced in biotech and pharma industries, high tech business development, technology transfer and marketing.

Gabrielius Jakutis
Team leader at
"Vilnius-Lithuania iGEM"

Mr. Jakutis is a last-year medical student at the Vilnius University, as well as Vilnius-Lithuania iGEM 2017 team leader and Science Development Coordinator at the Society of Innovative Medicine.

Together with his associates Gabrielius aims to promote an open, interdisciplinary, innovations-driven, and independent setting for students' applied research in Lithuania. Gabrielius has given 10 poster or oral presentations in international medical congresses based on his clinical research at the Faculty of Medicine, and in a year 2017 together with a team of the brightest students of the Vilnius University Life Sciences Center, won a Grand Prize award at the international synthetic biology competition "iGEM".

Aurimas Peckauskas
Board Member at Lithuanian
Junior Doctors Association

Mr. Peckauskas is an anaesthesiologist and a board member at Young Doctors Association of Lithuania.

Aurimas graduated from Lithuanian University of Health Sciences in 2016 and acquired an MD in Anesthesiology and Intensive care. He worked as an intensive care physician in the United Kingdom between 2014 and 2017. He has also received training in the Netherlands and Finland.

At the moment Mr. Peckauskas works as an anaesthesiologist and intensive care physician at the Hospital of Lithuanian University of Health Sciences Kaunas Clinics. He also works as a lecturer for undergraduates and postgraduates at the Lithuanian University of Health Sciences.
